

KEYUSH RAWAL

Airoli, Navi Mumbai

+91 9136987401 ✉ rawal.keyush@gmail.com 🔗 linkedin.com/in/keyush-rawal 🌐 github.com/CleverKeyush

Objective

Entry-level **Generative AI Engineer** with foundational knowledge in **LLMs, AI Agents, RAG, and MCP** protocols, eager to contribute to real-world **agentic AI systems** using **Python, LangChain, and LangGraph**.

Education

Dr. D Y Patil's Ramrao Adik Institute of Technology

Bachelor of Technology Computer Science And Business System (CGPA of 8.51)

July 2023 - June 2026

Navi Mumbai, India

Experience

Infion Consultancy Pvt. Ltd.

EGRC Platform Developer

Jan 2026 – June 2026

Navi Mumbai, India

- Configured a live EGRC platform on Onfinity across Asset, Risk, Compliance, and Audit modules with role-based dashboards for CEO, CFO, CRO, and CISO.
- Mapped 93 ISO 27001:2022 controls and 106 NIST CSF 2.0 subcategories; applied CVSS scoring, STRIDE threat modelling, and MITRE ATT&CK tagging to the risk register.
- Tracked real-time compliance and audit readiness aligned to ISO 27001, NIST CSF 2.0, ISO 27002, ISO 31000, and ISO 42001.

Projects

ChatPDF – AI Document Q&A (RAG Pipeline) | *Python, LangChain, ChromaDB, OpenAI, Streamlit*

- Built a **RAG pipeline** enabling PDF uploads with **semantic search** over chunked embeddings stored in **ChromaDB**, eliminating LLM hallucinations.
- Deployed interactive UI via **Streamlit** with cosine similarity-based **top-3 chunk retrieval**.

Research Agent – Autonomous AI Web Assistant | *Python, LangGraph, LangChain, Tavily API, OpenAI*

- Built an **agentic AI system** using **LangGraph + ReAct framework** where LLM autonomously searches, reads, and summarizes real-time web results.
- Implemented **conditional graph routing** and **max iteration guardrails** for safe, reliable agent execution.

NeuroSentinel – Cloud-Native Monitoring App | *Flask, Docker, Kubernetes, AWS EKS, GitOps, ML*

- Deployed a **cloud-native monitoring system** with real-time metrics, **self-healing controllers**, and **ML-based anomaly detection**, reducing false alarms by **75%**.
- Implemented **GitOps-based config management** with JWT-secured Flask dashboard on **AWS EKS**.
- IPR Filed:** Diary Number **SW-37805/2025-CO**.

Technical Skills

Languages: Python, C++, JavaScript

AI/ML: LangChain, LangGraph, OpenAI API, RAG, Prompt Engineering, scikit-learn, Pandas, NumPy

Tools & Databases: ChromaDB, Tavily API, Streamlit, Docker, PostgreSQL, GitHub

Concepts: LLMs, Agentic AI, ReAct Framework, Vector Embeddings, MCP, A2A Protocol

Leadership & Achievements

- * **Tutedude Web Development Hackathon (2025)** – *6th Place / 3,000+ Participants*
Led team to develop *BazaarSetu*, a digital storefront for local vendors; awarded Certificate of Excellence.
- * **KLEOS 3.0 National-Level Hackathon – Finalist** | RAIT ACM, 24-Hour Hackathon
Selected for the final round from participants nationwide; demonstrated rapid prototyping and collaborative problem-solving.
- * **GDSC Hackathon – Top 11 Finalist** | Google Developer Student Club, RAIT
Secured Top 11 among all teams by building an E-Waste Management app using Flutter; recognized for innovation and teamwork.
- * **Bharatiya Antariksh Hackathon 2025 – Certificate of Acknowledgement** | ISRO
Led team on problem statement: *“Simulation/Modelling of Forest Fire Spread using AI/ML Techniques”* — leveraging AI/ML for environmental impact.
- * **Certifications:** AI/ML Geodata (IIRS, ISRO) | Geo-spatial Analysis via Google Earth Engine (IIRS, ISRO) | Google Cloud Training GCCF1x-4x | SQL Courses (DataCamp)
